

Some general explanations

„**Schuko**“-Steckverbindungen = } safety (earthing) contact-connectors
Schutzkontakt-Steckverbindungen = }

Built according to Austrian and German standards.

We can also supply plugs and couplers of other standards and the junction boxes could also be equipped with other sockets than those according to the Austrian/German standards.

e.g.: Belgium – French standards
English system
Swiss system
a. s. o.

FI = R.P.C. residual current protective switch
(leakage circuit breaker)

LS = automatic current breaker
